Bahasa Indonesia
English

EXPERIENCE

Kupitilizer Project
- Built an application with a team of 5 people called kupitilizer, namely an application for exchanging coffee grounds waste into products in collaboration with KamiKita partners. This project has been submitted to the Student Creativity Program which has passed the proposal stage.

Himpunan Mahasiswa Informatika (HMIF USK)
Student Research and Development Department
(*March 2023 until now*)
- As Head of Git Academy, I successfully led the team in planning and implementing Git technology training events. Responsible for team coordination, material development, and maintaining relationships with work partners. As a result, the event was a success, providing a quality training experience, and increasing participants' understanding of Git.

Google Developer Student Clubs (GDSC USK)
Academic Department
(*September 2022 – Septemper 2023*)
